emotions

Through realizing and recognizing their emotions, children can understand and handle their reactions more easily, as well as developing their communicative skills. The section Emotions is a collection of all those of our products which refer to emotions and moods. It comprises hand puppets, balls, chore charts, puffs, stencils or stamps. Each product shows 6 emotions symbolizing joy, sadness, fear, anger, surprise and lack of emotion. Each emotion is allocated its own distinctive colour for easier identification.

& worksheets

The idea behind the chore charts was to give variety to games and plays through extension with new variants. These are created in co-operation with teachers, who have practical knowledge of the school and preschool environments. The charts may facilitate teacher-run activities but also lend themselves to individual play at home.

microscopes

The microscopic world is a mysterious and fascinating environment rich in live organisms invisible to the human eye. We can explore its nature thanks to microscopes – a product of the human mind. To help children watch the microscopic world, we offer best-quality digital and optical microscopes for use at schools, colleges and laboratories. Some of them can be used out in the field. All of them are best-quality products with very good optical parameters. Our offer meets the needs of various users and various tasks. The simple versions are intended for children and aim to get them interested in science. The classical models are for pupils who have just started their adventure with biology in primary school. The advanced microscopes will best serve in situations where high precision and picture quality are a priority. The offer is complemented by an array of accessories, such as slides coverslips, preparatory devices, ready-to-use biological preparations and image-recording devices, i.e. camera.

accessories for microscopes

Sets contents:

MX 0088

- 1 Eyedropper
- 1 Tweezer
- 1.6x Barrel Lenses
- 15 ready-to-view specimens
- 5 clear basic slides
- 1 Pre-treatment needle
- 1 Lockable tube
- 1 Stirrer
- 1 Sample container
- 1 Optics cleaning wipes
- 1 Labels for preparations.

MX 0047

- 2 Simple preparation needle (black plastic handle, chromed steel)
 - 1 Lanceolate needle (black plastic handle, chromed steel)
 - 1 Steel tweezers with a sharp end (13 cm)
 - 1 Steel tweezers finished blunt (13 cm)
 - 1 Steel sectional scissors, pointed (11 cm)
 - 1 Steel scalpel (handle for mounting blades)
 - 5 Scalpel blades (for mounting in a scalpel holder)
 - 2 Pasteur plastic pipette with a capacity of 1 cm
 - 2 Plastic round bottom test tube with stopper
- The whole is in an aesthetic reinforced case closed with a zipper.

Neuron model

QH 0020

- size: 36 x 23 x 10 cm

Human brain with arteries.

Anatomical model

AM 1414

See how the brain is built and learn about its functions.

- q life-sized
- q made of plastic

Human eye model

VO 6192

- q 6 mobile elements
- q on a stand
- q ø 16 cm, H 21 cm

Human ear model
VO 6376

- scale 4:1
- size 44 x 14 x 28 cm

Lung demonstration model
AM 7120

An aid to explain how lungs get filled and emptied of air thanks to the diaphragm.

- set includes: a plastic jar (ø 20 cm), a rubber disc, 2 balloons

Human thoracic organs.
Anatomical model

QH 0016

- model includes: larynx, trachea and the bronchi, two-chamber heart, subclavian artery, vena cava, pulmonary artery, thorax, oesophagus, removable lungs, diaphragm
- size: 23 x 34 x 18 cm

Artery structure model
QH 0013

- size: 17 x 17 x 22 cm

Human urinary system.
Unisex model
QH 0014

- 3 pcs
- size: 21 x 13 x 35 cm

Bone structure. 3D board
HG 0001

- the board consists of 4 element: periosteum, blood vessels, cancellous bone, cortical bone.
- size: 53 x 38 x 8 cm
- made of PVC
- hand-painted

Kidney nephron and glomerulus.
Anatomical model
HG 0002

- mounted on a flat base
- includes 3 specific elements: kidney (9.5 x 14 cm), glomerule (8 x 14 cm), nephron (15.5 x 19 cm)

Human skin model
RV 3132

- A cross-section model representing in microscopic detail the structure of human skin.
- size: 11.5 x 22 x 21 cm
 - scale 70:1

Blood circulation system
3D board

Pregnant woman uterus. Model
QH 0021

A two-part cross-section model of a uterus in the 40th week of pregnancy.

• size: 40 x 26 x 34 cm

Muscles of human body.
Model
QH 0048

A general model of human muscular system.

• size: 20 x 17 x 85 cm

Human torso model
HG 0003

A unisex human torso.

• 44 removable parts

• H 85 cm

Human trunk model
EI 0050

The model is made of plastic. The organs can be taken out for closer inspection.

• 11 elements; H 50 cm; ages: 6+

Human skeleton. Model
BD 5302

- life-sized (H 170 cm)
- made of plastic
- metal stand with castors

Model of human skeleton left painted
QH 3302

- Muscle origins are marked in red and insertions in blue.
- made of plastic and fixed, on a mobile stand
 - need assembly
 - life-sized (H 170 cm)

Cranial Nerve Skull
EI 0013

Highly detailed finish, collectible quality.

- 9 cm; includes: 39 elements, display stand, manual
- ages: 8 +
- until stock run out

Skull Model
HG 0041

A skull model with a mobile mandible and removable elements.

- size: 22 x 14 x 16 cm; weight 950g

Small human skeleton. Model
VO 6188

- easy-to-join plastic elements
- H 80 cm

Human vertebral column and pelvis. Model
QH 0022

- life-sized (25 x 14 x 66 cm)
- flexible

Human leg muscular system.

Demonstration model

QH 0023

• 23 pcs

Human arm muscular system.

Demonstration model

QH 0024

• 7 pcs

• size: 70 x 30 x 32 cm

Hand Model

EI 0014

- highly detailed finish
- includes: 23 pieces, display stand, manual
- H 16.5 cm
- ages: 8+

Oral hygiene model

VO 5456

• 7 cm

Stethoscope

EI 0001

• made of metal; L 75 cm

Human body. Magnetic board

NS 1364

An educational toy, that helps gain knowledge concerning the structure of human body. The task is to assemble a diagram of each of the systems of human body (bone, muscular, respiratory, digestive, endocrine, urogenital and circulatory system).

Set includes:

- 1 big magnetic board 100 x 60 cm
- 16 magnets with names of human body systems (in english and polish)
- 69 magnets with depictions of human body parts
- box, manual

animal skeletons

A plastic animal skeletons encased in plexiglass. Useful in biology classes.

- plastic eco
- acrylic glass case

Fish skeleton
RV 3009

• size 15 x 13 x 21 cm

Lizard skeleton
RV 3017

• size 23 x 10 x 6,5 cm

Toad skeleton
RV 3016

• size 15 x 17,5 x 5,5 cm

Pigeon skeleton
RV 3006

• size 19,5 x 15,5 x 21 cm

Rat skeleton
RV 3014

• size 15 x 13 x 21 cm

Rabbit skeleton
HG 0017

• size 37,5 x 18,5 x 13,5 cm

Plastic animal skeletons for observation and study. Durable, clear acrylic allows close up viewing from all angles. Acrylic block will not break even if it is accidentally dropped. Due to nature of the product it may differ slightly from the image shown.

Life cycle of Grasshopper HG 0046

The full life cycle of a Grasshopper in this 9 stage development specimen. The real life grasshoppers are encased in break proof acrylic.

- size: 16,5 x 8 x 2 cm, acrylic material

Turtle Skeleton HG 0016

- size: 13,5 x 9 x 2,4 cm

Toad skeleton HG 0014

- size 13,5 x 9 x 3,5 cm

Fish skeleton HG 0013

- size 20 x 9 x 4 cm

Lizard Skeleton HG 0009

Rabbit skeleton HG 0015

- size 20 x 9 x 4 cm

Rat skeleton HG 0012

- size: 20 x 9 x 4 cm

physics

Geometrical optics.

Demonstration set

QH 0049

An instrument for optic experiments, e.g. refraction and reflection of light or near- and far-sightedness

- size: 75 x 24 x 37 cm

Color mixing apparatus

QH 0055

A special projector using 3 strong low-voltage LED lamps (red, green and blue) in special holders and sockets to ensure adjustment of the

angle of incidence for each colour ray onto the white screen.

- size: 22 x 17 x 16 cm
- wall fasteners and manual included

Convex lens and concave lens

QH 0056

Spherical and convex spherical mirror on separate bases.

- dia. 10 cm, 2 pcs.

Optical bench with equipment

QH 0019

- set contains: a torch with bulb, 5 handles, 3 graphs, a screen with a handle, 4 convex lenses, 2 concave lenses
- size: 101 x 6.5 x 20 cm

Equilateral prism glass

AM 0972

Prisms are essential tools for teaching about light refraction and dispersion and come in a variety of shapes and sizes.

- size 2,5 x 10 cm

Thermal expansion.

Demonstration set

QH 0038

A demonstration set for thermal expansion of solids.

- made of metal

Assorted spring set TS 19305

- tension springs: 10 pcs - 7 x 13 cm, 10 pcs - 6 x 12 cm, 10 pcs - 5.5 x 27 cm, 10 pcs - 9.5 x 16 cm, 12 pcs - 9 x 18 cm, 8 pcs - 9 x 35 cm, 10 pcs - 5.5 x 38 cm, 10 pcs - 10 x 19 cm
- compression springs: 10 pcs - 5 x 10 cm, 10 pcs - 5.5 x 14 cm, 10 pcs - 6 x 10 cm, 8 pcs - 8 x 13 cm, 10 pcs - 7.5 x 17 cm, 12 pcs - 8.5 x 26 cm, 12 pcs - 8 x 50 cm, 12 pcs - 7 x 55 cm, 12 pcs - 4 x 70 cm, 8 pcs - 5 x 34 cm, 10 pcs - 7 x 25 cm, 10 pcs - 8 x 23 cm

Screw spring set TS 15714

- A set of 5 springs of different moduli of elasticity.
- 0.5N, 1N, 2N, 3N, 5N.

Dynamometers QH 0036

- 3 pcs: 1N, 5N, 10N in various colors

Dynamometer 10N QH 1040

Dynamometer 5N QH 1035

Dynamometer 1N QH 0031

Dynamometer 1N AM 0704

- 0 - 1N

Density blocks with hooks HG 0410

- A set of cubes of equal volume made of different metals and alloys eg. Copper, brass, lead, zinc, steel, aluminium.
- cube side: 3.2 cm

The equal mass set AM 1323

- The equal mass set contains samples of tin, aluminium, lead, zinc, copper.

Tuning fork 440 Hz QH 2206

- set: Hammer + tuning

Rolling pendulum
QH 0040

- size: 23 x 10 x 41 cm

Electrostatic pendulum
QH 0029

- 2 pcs
- H 30 cm

Water electrolysis
experiment device
HG 0130

An electrolyzer in the form of a cylindrical plexiglass container with a raised bottom with two banana sockets (+ and -) underneath. These are connected with electrodes threaded through rubber stoppers of respective colours placed in the inlets of two acrylic test tubes with scales marked.

- size: 12 x 8.5 cm.

Archimedes' principle
Demonstration set
QH 0031

- set includes: 2 cylinders and a spring scale
- size: 17.5 x 4 x 7 cm

Lever with stand
QH 0032

A demonstration set for the uniformly accelerated motion.

- size: 49 x 8.5 x 25 cm

Uniform motion and uniformly accelerated motion. Demonstration set
QH 0053

A device for exploring the properties of the uniform motion and the uniformly accelerated motion during science lessons.

- size: 110 x 20 x 24 cm

Van de Graff generator
HG 0008

- set includes: a conical and a spherical conductor with a spike and a stand, a spherical conductor with an insulated handle, an electrostatic mill, a brush
- manual drive
- size: H 74 cm, dome \varnothing 26.5 cm

Magnetic attractions kit
EI 0052

An assortment of magnets and magnetic objects for exploring magnetism in-depth.

- 18 elements, ages: 8+

Small magnetic needles
QH 0050

The set contains 10 miniature compass needles on stands.

- 10 pcs; stainless steel
- size: 3 x 2.5 x 3.7 cm

Magnetic field lines
QH 0030

A demonstration mini-set.

- size: 18 x 18 x 21 cm

U-shape Magnet
QH 0034

- made of chrome steel

Digital calliper
QH 0002

- an electronic 150 mm calliper

Vernier calliper
QH 0001

- a traditional 150 mm calliper

Mechanics. Mobile laboratory

QH 0052

A set for experiments with mechanics.

- set includes: plastic container, a ballistic gun, a lab container, a steel ball, a lab stand, a spirit level, six 100 g weights, a tribometer, a dynamometer, a ruler, a mathematical pendulum, 3 bodies of different masses

Multimeter

TS 15090

- voltmeter and ammeter
- separate 10 A socket
- battery-powered (battery not included)

Foil electroscope

AM 0113Z

- size: 21 x 9 x 24 cm

Friction on an Inclined

HG 0740

This wooden inclined plane with adjustable tilt angle has a metal pulley at the upper end which holds a metal pan for weights. The weights exert a force on the body on the plane. The attached protractor has two scales (in degrees and centimetres) for measurements. Experiments with three kinds of blocks (of different size, weight and surface) help demonstrate how these affect the movement of blocks depends on the tilt and weights on the pan.

- 2 wooden boards, 1 metal pulley, 1 metal pan, 1 hook"

Pointer electroscope

QH 0028

- the needle indicates changes in electric current
- 1 pc.
- size: 20.5 x 15 x 37 cm

Voltmeter DC 0~1~5 V
RV 1007

- measurement range: 0-5 V, accuracy $\pm 2.5\%$ FS, sensitivity: 1 mA, dimensions: 133 x 97 x 100 mm, weight 0.3 kg, scales: 0-5 V; 0-3-15 V; 0-5-15 V; -1-0-3 V; -5-0-15 V

Experiments with electricity
QH 0033

- box size: 24.5 x 14.5 x 4.5 cm

Block Circuit Board
HG 0005

- A demonstration set of electric circuits.
- size: 36 x 36 x 5.5 cm

geography

Military type compass HG 0007

- light but durable aluminium casing
- size: 7.5 x 6 x 3 cm

Anemometer (digital) HG 0004

An instrument for measuring the direction and strength of wind.

- measurement range: 0-30 m/s
- size: 40 x 10 x 10 cm

Thermometer QH 0003

A thermometer for fluids and solids.

- temperature range: -50 – 750 °C

Electronic pocket balance HG 0088

- 500g/0,01g; Size is 12 x 6.5 x 2 cm

Soil set RV 0303

It consists of: clay soil, loamy soil, chernozem, purple soil, paddy soil, braunerde, sandy soil and humus soil.

- 8 pcs
- size of box: 13,5 x 12,5 x 3 cm

Minerals set QH 0039

- 42 pcs
- in a plastic box

Thermal and Sewage pollution kit AM 0858

Discover the effects of temperature and raw sewage on water quality. Experiments presented include poisonous effects of sewage and temperature on aquatic life, biological oxygen demand and the changes in BOD, interaction of sewage decomposers and other aquatic organisms, and the collection and observation of actual water samples. Includes enough materials for 30 students to work individually, comprehensive Teacher's Guide and reproducible student worksheet.

Investigating measurement and density AM 0700

Through 18 investigations, students explore measurements such as length, area, volume, temperature and mass using the scientific method of observations. Materials include a ruler, measuring cylinders, mass pieces, wooden and Plexiglas blocks. Two student workbooks, "Investigating Measurement" and "Investigating Density," are included.

How clean is the water

AM 0029

This kit is a hands-on way to teach about the effects of pollution on water. Conduct experiments on the chemicals and organisms that pollute our water and how it can be purified. With this kit you will be able to test the level of bacteria in water, the chloride content, the pH level and the rate at which particles settle in water. Includes SDS. 13-1/2" x 10" x 2-3/4"; 2 lb

Quality of water test kit (10student)

AM 0002

Conduct qualitative tests on samples of water from various sources and identify pH, dissolved oxygen, odor, color, turbidity and coliform bacteria. Enough materials are included to complete these 5 different water quality tests. Students also learn to distinguish between ground, surface, drinking and waste water. Teacher's Guide and reproducible student worksheet included. Incubator is needed for testing, but is not included in this kit.

Environmental student test lab kit

AM 0010

Perform experiments just like those used by government agencies! Nine different tests of the air and water around us can be performed with the Environmental Student Test Lab kit. Your students will be interested to know that their experiments duplicate those actually carried out by state and federal agencies. Five water tests look for dissolved oxygen, hardness, chloride, phosphate, and pH. The kit also gives you four air tests for suspended particles, smoke density, concentration of chemicals, and carbon dioxide. These tests are easy to do and produce clear, visible results. Many of the tests give or estimate quantitative results. The kit includes 8 test chemicals, test equipment, two charts, and a reproducible laboratory manual. This kit is an excellent introduction to air and water evaluation. Includes SDS. 13 3/4" x 10" x 8"; 1lb

Fairy tale stories. Worksheets

NS 2970

The set contains 48 cards with characteristic symbols from various fairy-tales and stories.

Cardboard cards (11.5 x 8 cm) with rounded corners in a cardboard box.

Generally, the cards are meant to be arranged so as to construct a logical story. The set contains 48 cards with imagery referring to widely known European fairy tales. Flashcard activities may be enhanced by introducing hand puppets and/or musical instruments. Children can work individually, in pairs or in a group.

Suggested uses:

- an adult tells a story contained in a set of pictures. The child listens and then, looking at the same set, tries to repeat as many details as possible;
- a child draws three cards and tells the stories which they represent; the difficulty should be graded with more cards added; to add variety to the game, multisensual elements can be introduced (hand-puppets, musical instruments);
- a child draws five cards and tells its own story; the number of cards should be adjusted to the child's abilities; multisensual elements can be introduced (hand-puppets, musical instruments);
- version for a group: the first child draws a card, chooses one musical instrument, starts to tell a story and play. The subsequent players draw their cards and continue the story, repeating the story so far. They also have to reconstruct the sounds played by the first child.

The activities suggested can be adjusted to the needs, age, abilities or the number of players by modifying the rules as necessary.

Before starting the game all cards should be laid out on the table so as to familiarize them with the symbolic meanings of the pictures and check their knowledge of the fairy tales.

Flashcards for developing language skills:

- help develop logical thinking, and causal reasoning;
- help develop descriptive and narrative skills;
- very useful in introducing, practising and consolidating new vocabulary;
- develop creativity and artistic expression.

- 64 cards with rounded corners in a cardboard box
- size: 11,5 x 8 cm
- ages: 3+

Time for English

Time for English is a set of educational materials for teaching English to 3-8 year old children. Its innovative character is provided by its unique combination of specially selected 'language teaching tools' such as multi-sensory toys, educational aids, audio materials, and songs with sets of instructions for teachers to guide them through the process of organizing lively, game-packed and involving English language teaching activities.

The educational aids and audio materials have been specially designed to provide a rich variety of tasks built around selected topics, selected vocabulary and associated structures.

This approach ensures the compatibility of all of the materials and guarantees great results: the children play, are fully involved in activities, respond spontaneously AND learn English at the same time. The whole set contains over 120 games and activities making use of the Time for English educational aids.

The Time for English set has been tested in preschools and early year primary school and has been proven to be very successful with groups of different sizes.

An example of the topic **FRUIT**

The following materials illustrate the compatibility of educational aids to teach children: the English names of fruit, colours, numbers, English instructions to make a fruit salad, fruit art projects connected with printing and English songs which consolidate all of the presented language.

Instructions, lesson plans, CDs

Wooden puppets: family members

The wooden puppets can be decorated and become family members speaking English.

It's a fun activity combining art tasks with drama and English language teaching.

Zoo beads

Children love them and they are motivated to learn the names of zoo animals, their colours and numbers. The multitude of animals in the set helps to keep all the children of all sizes of group engaged.

Animal-shaped counters

72 of these little farm animals can be named, touched, hidden in the palms of little hands, counted, grouped into sets, and used for constructing farms. All of these activities are performed in English and for the purpose of learning English.

Large flashcards for the topics: farm animals, safari animals, clothes

Flashcards are a basic tool for teaching English to children. The large colourful pictures help the children to remember the words and to introduce English vocabulary using only English.

Game: Dressing the Cats

This is a game that children also like to play with in their free time. The little wheel of chance introduces an element of chance, luck and surprise, which helps to keep the children focused on the task and teaches them English words.

Story cards: daily routines

The sets of cards create opportunities for sequencing, constructing stories, naming in English and acting out daily activities.

Morphun blocks 3D

Morphun blocks provide opportunities for creating sequences, rhythms, word groups and longer expressions.

Behaviour chart NS 0301

Behaviour chart is an agreement about rules of class conduct. It is an element of pedagogical intervention at a basic level. The rules are drawn up with pupils, which helps raise a child's awareness of his or her responsibility for their own behaviour. Although class integration is very important at the primary school level, many pupils have problems with developing bonds and the stressful school reality can hinder the development of interpersonal relationships. Our Class Contract may prove a remedy to this. The behaviour chart can be used by the teacher and/or

pupils. The contract should raise the sense of responsibility resulting from co-operation and taking decisions together. It has a potential of bonding the group together and creating a good rapport through honest self-evaluation. It should facilitate comprehensive development of pupils and make it possible for the teacher to better observe each pupil in various task situations in order to get to know his or her character better. The contract is an in-class system of evaluation and a code of conduct.

My House NS 0302

My house is a teaching aid and a multifaceted tool to use with a whole class or individually. The wide variety of elements leaves a lot of freedom in inventing exercises for language skills on A1 level. The board can also be used for play at home can serve as flashcards for memorizing vocabulary, and it can be used as a classroom decoration.

hand & finger puppets

The bunch of colourful fairy-tale characters in the form of hand puppets will take a young puppeteer into the world of fantasy to impersonate a favourite character or prepare a play at school or at home. The puppets develop imagination, creativity, self-expression, listening and manual skills. They also help overcome shyness and anxiety, and generally manage emotions. They provide an excellent opportunity to play with parents and to build bonds

while performing various social roles. The puppets have been divided thematically into fairy-tale characters and the most popular professions (policeman, cook, firefighter). All the puppets have plastic heads and the other elements are made of velour, fleece or satin. Thanks to the small size and weight they can be used even by the youngest and carried practically everywhere.

The idea behind the chore charts was to give variety to games and plays through extension with new variants. These are created in co-operation with teachers, who have practical knowledge of the school and preschool environments. The charts may facilitate teacher-run activities but also lend themselves to individual play at home.

ZEBRA

These printed wooden cubes are a complete educational set which develops logical and spatial thinking and thus it prepares children for elementary programming. The game comes in three versions, each meeting different needs and skills of the users. The complete set comprises cubes, reference charts, grid transparencies and self-evaluation charts, and their number depends on the level of difficulty. Simple rules, the simple structure of the set and the self-evaluation charts develop independent activity irrespective of age. All the cubes have the same number and pattern configurations. They are elements of one of 30 suggested jigsaws. We offer 3 sets of cubes (of 9, 16 or 25 pieces). The worksheets are numbered according to the level of difficulty. The cubes can be arranged freely on the table or on the tray provided. More demanding players will be interested in the 3D version (with worksheets and a tray).
